

NAME

aras.schedule – Schedule description file for ARAS – A Radio Automation System.

DESCRIPTION

aras.schedule The ARAS schedule file contains the schedule description for ARAS.

OPTIONS

The ARAS schedule file contains comments and some schedule elements, one of them in each line:

Lines with a # character at the beginning are comments.

A schedule element is defined in a line as follows:

```
Day Time Block
```

Where:

Day can be: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday or Saturday.

Time is the time of the beginning of the schedule element in the format HH:MM:SS.

Block is the block associated with the schedule element. Blocks are defined in the *aras.block* file (see *aras.block* (5) manual page).

An example of a schedule element definition is:

```
Monday 22:00:00 my_block
```
